

Jingchuan (Carlton) Shi

AI ARTIST & CREATIVE TECHNOLOGIST

Syracuse, NY | 315-395-2313 | jshi77@syr.edu | [LinkedIn](#) | [Portfolio](#)

PROFILE

AI Artist and Creative Technologist working across generative image and video, VFX, motion design, and digital storytelling. Builds ComfyUI-based production workflows and integrates AI-generated assets into live-action, film marketing, and immersive media, with workflow gains up to 30% and social content exceeding 100K likes.

CORE SKILLS

Generative AI: ComfyUI, custom LoRA models, Stable Diffusion, Midjourney, Runway, Higgsfield, Seedance 2.0/2.5, Kling O3, Suno
VFX & Motion: After Effects, DaVinci Resolve, Premiere Pro, Nuke, Photoshop, compositing, motion graphics, color grading
3D & Real-Time: Unreal Engine, Blender, Maya, Houdini, digital humans, XR and immersive media
Web & Creative Operations: HTML, CSS, JavaScript, Airtable, Google Analytics, SEO, KPI analysis, SQL

EXPERIENCE

- Technical Artist, Flynn

Jun 2026 - Present

 - Developed an AI agent skill for Flynn's creative team that turns brief descriptions into AIGC video-script prompts with precise control over character facial expressions, dialogue, and actions.
 - Built an AIGC workflow from scratch for the creative team and fully participated in multiple real-world projects.
- U.S. Domestic Marketing & Distribution Intern, Highland Film Group (The Avenue)

Jan 2026 - Present

 - Built an AI agent for social-content creation, improving the marketing team's content-workflow efficiency by at least 30%.
 - Produced campaign-ready trailers, promos, posters, and theatrical and digital release assets, translating creative direction into production-ready visual deliverables with cross-functional teams.
 - Managed Airtable-based creative asset systems across multiple film titles, improving asset tracking, version control, and cross-team visibility.
- Web Design Artist (Part-time), F.O.U.N.D.

Sep 2025 - Present

 - Designed responsive layouts and modular interactive components; implemented JavaScript-driven interactions and dynamic content to support visual consistency and faster creative iteration.
- Technical Artist, JOYME

Mar 2025 - Jun 2025

 - Designed AI-assisted VFX pipelines for facial replacement, character enhancement, and asset reuse, improving production efficiency by approximately 20%.
 - Integrated generative AI outputs into live-action footage using ComfyUI and node-based compositing workflows for production-ready visual results.
 - Led research and design teams applying generative AI to previsualization, concept iteration, and look development.
- Video Editor, NetEase

Feb 2025 - Mar 2025

 - Produced fast-turnaround short-form cinematic content using VFX, motion graphics, and color grading in DaVinci Resolve and After Effects; clips earned more than 100K likes across TikTok and WeChat Official Accounts.
- Graphic Artist Intern, Studio KAY

Jun 2023 - Jan 2024

 - Built digital-human assets and VFX elements for XR and immersive-media campaigns; optimized Unreal Engine and Maya rendering workflows to reduce render time by 20% while aligning shaders, lighting, and render setups with narrative intent.

SELECTED PROJECT

RealLife AI

- Built a web-based AI photo-enhancement platform with ComfyUI and custom LoRA models, producing high-fidelity photorealistic results while preserving subject identity.

EDUCATION & CREDENTIALS

- M.S., Advanced Media Management - Syracuse University

2025 - 2026

S.I. Newhouse School of Public Communications
- B.A., Film Studies: Zhongnan University of Economics and Law | B.E., Film & VFX - Dongseo University
- Selected Training: Advanced Learning Algorithms (DeepLearning.AI, 2025) | AIGC (Newhouse, 2025)
