ONE PRODUCT. SIX PERSPECTIVES.

A coherent asset family: catalog clarity, tactile detail and the context of a day outside.

01 / FRONT / FORM

Read the silhouette at a glance.

02 / SIDE / PROFILE

Explain depth and the side pocket.

03 / BACK / CONCEPT

Explore the unseen carry structure.

04 / DETAIL / TEXTURE

Bring material and color closer.

05 / ON-BODY / SCALE

Show how the object sits on a person.

06 / TRAIL / CONTEXT

Connect the object to the brand world.

SELF-INITIATED CONCEPT • AI-ASSISTED IMAGES • REAR VIEW IS A DESIGN INTERPRETATION

01 / FRONT / FORM

WEEKEND EQUIPMENT / 01

DAYPACK.
A DAY, OPEN.

Pine / 18L concept

A quiet companion for the everyday detour. Room for your essentials, with a silhouette that keeps the plan simple.

ROLL-TOP FORM

An adjustable silhouette, a front pocket for the small things, and a carry system explored from every side.

THE SMALL THINGS COUNT.

Dark hardware. Tactile fabric. One warm orange accent that gives the front pocket a clear point of focus.

01 / WOVEN TEXTURE
02 / ROUNDED POCKET SEAM
03 / CONTRAST ZIP PULL

FROM ROUTINE TO RIDGELINE.

The same object, seen in the context of an unhurried day outside.

OFF HOURS

OFF HOURS / MAKE ROOM FOR OUTSIDE.

ONE SYSTEM.
A DIFFERENT RHYTHM.

01 / REORDER

The headline moves above the gallery.
Product images remain the primary focus.

02 / KEEP VIEWS VISIBLE

Six 47px thumbnails fit a 342px gallery.
The selected image has an outline and label.

03 / STACK THE STORY

Detail and lifestyle sections become one column.
Readable copy and deliberate spacing guide the scroll.

04 / REUSE THE SYSTEM

The same photo variants, typography,
colors and CTA components remain connected.

05 / TRY THE PROTOTYPE

Tap a thumbnail to switch the view.
Scroll or use the CTA to reach the details.

SELF-INITIATED / AI-ASSISTED CONCEPT
Rear construction is a visual interpretation.

DETAILS WITH A POINT OF VIEW.

A product presentation that connects visible design choices to a clear visual hierarchy.

01 / THE TEXTURE

Close framing reveals the weave and seam. Side light makes the material readable without adding visual noise.

02 / THE ACCENT

The orange cord creates a small, repeatable focal point that ties product detail back to the campaign palette.

03 / THE FORM

Front and side views explain shape. The rear concept completes the carry story; on-body imagery adds scale.

VISUAL STUDY / Material, capacity and construction remain concept assumptions; no performance testing is claimed.

MAKE ROOM FOR OUTSIDE.

A LITTLE LESS ROUTINE.
A LITTLE MORE TRAIL.

OFF HOURS / DAYPACK

OFF HOURS / INTERACTION + HANDOFF

SEE IT. SWITCH IT. ADAPT IT.

Open Present on either product page. Select thumbnails to change views, then use the CTA to reach the detail section.

01 / FRONT / FORM

LIVE COMPONENT / 6 CLICKABLE VIEWS

01 / REUSABLE ASSETS

Product View: 6 variants. Product Gallery: Desktop / Mobile × 6 views. Shared tokens, typography, wordmark and CTA components remain connected.

02 / RESPONSIVE DECISIONS

Desktop uses a two-column introduction and a 680px gallery. Mobile reorders the headline above a 342px gallery and stacks the feature story. Thumbnails stay visible in both sizes.

03 / INTERACTION CONTRACT

Click / tap a thumbnail → switch image, selected outline and caption together. The transition is a short dissolve; the product is shown through discrete views, not a 3D rotation.

04 / AUTHORSHIP + LIMITS

Self-initiated fictional brand. AI-assisted imagery with reference-based product direction. Rear construction is a concept interpretation. No user research, manufacturing validation or conversion lift is claimed.
